## ALUMINUM & uPVC

### 3 AXIS CNC PROCESSING CENTER

#### INFORMATION

- It is a machine that can perform door, wing, arm barrel and triple drilling operations on aluminum and uPVC profiles.
- It is a machine that can perform water slot milling on uPVC profiles.
- Fast and precise machining of 3 sides of the profile without rotating
- CNC control 10" touch screen
- 3 independent axes (AXIS) and 3 motor operation feature
- Cooling system for aluminum profiles
- 1.5 mt right and left roller conveyor system, both with rulers and length stops
- Precise working thanks to linear guide system
- Ability to adjust speed settings for all operations
- Easy switching from touch screen to Aluminum PVC profile and automatic change of speed settings.
- Unlimited memory capacity
- Automatic protection cover for safety-
- Servo motor system on X, Y, Z axes
